## Skills:

JavaScript , React, TypeScript, Redux Saga/Thunk, Material UI, React Hook Form, Formik, Git, HTML5, SCSS/CSS, web-pack, gulp, npm/yarn, Jira, Asana.

Had experience mentoring trainee web developers.

## Experience:

### Creator IQ /

I was responsible for developing the UI using a custom campaign library. My main tasks included integrating the backend with the frontend, enhancing the user experience and optimising the codebase by improving the app's architecture and refactoring legacy code.

Creator IQ is a SaaS marketing application that facilitates partnerships with creators to achieve wider business objectives. The company boasts a team of over 500 employees.

## About Me

Coding represents our present and future. This belief serves as a constant source of motivation for me. You write code and potentially a lot of people will be using what you create. For me it means that you doing something useful for this world. I love to be challenged and hope to get an opportunity to become a better version of myself in my future projects.

My passions are active leisure, bicycle, sport, Ukrainian and European travelling, cinema from 20 century, music, reading.
